SERVICE BULLETIN – 01/MARCH 2004

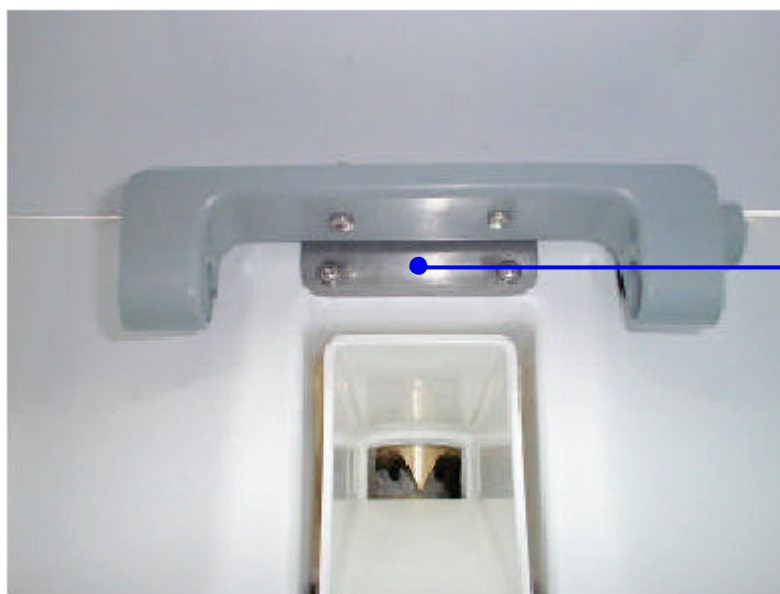

SPR 80

NEW LOCATION OF THE ICE LEVEL CONTROL

Starting from the following serial numbers:

SPR 80 s/n 3571

The Optical Ice Level Control has been moved from the upper side of the plastic ice spout into the storage bin, just above the outlet of the plastic ice spout (see photo below).

**Part Number
724373 00**

This modification increased the capacity of the storage bin by 5-6 kgs.

The installation of the Optical Ice Level Control on the new location has required a small modification on the upper side of the storage bin mold as well as the use on a new S.S. bracket Part Number **724373 00**.
