SERVICE BULLETIN – 01/JULY 2003

SP SERIES

OPTICAL EYES PROTECTION

Starting from the following serial numbers:

SP 125 s/n 01732

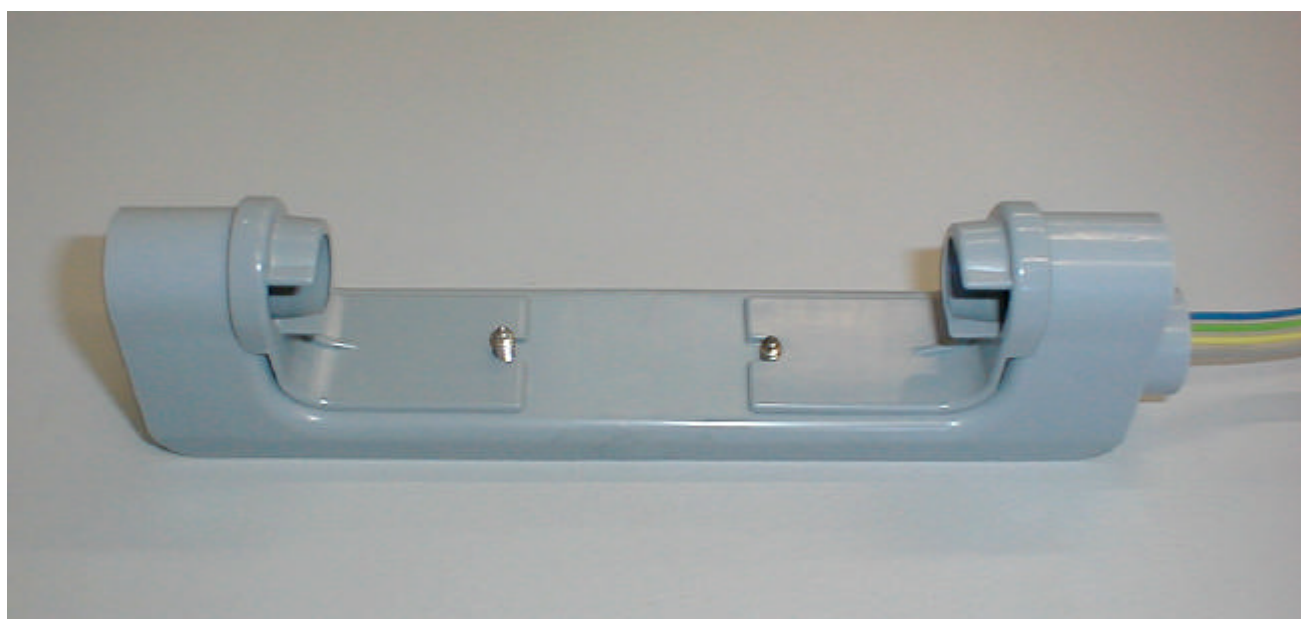

SP 255 s/n 01860

SP 405 s/n 01669

SP 605 s/n 01656

SPN 1205 s/n 01117

The Flaker machines are now equipped with plastic protection on the Optical Ice Level Control in order to reduce the possibility that external light can affect their operation (see photo).

In case of trouble with the Optical Ice Level Control on machines in the field, we suggest you to install the Plastic Protections, available under the following part numbers:

- Plastic protection left p/n **660720 00**
- Plastic protection right p/n **660720 01**

Pay attention, when the Plastic Protections are fitted on the Ice Level Control of old units, to check for the correct alignment of the EYES through the holes of the ice chute.
