SERVICE BULLETIN – JUNE 2003-01

SD 18 - SD 22 Water Cooled

NEW PRESSURE CONTROL

Starting from the following serial numbers:

SD 18 s/n 2470

SD 22 s/n 204697

The previous Pressure Control P/N 620075 00 (P 20 EA-9950C) has been replaced with a new one (P 20 EA-9960C) available under Part Number **620075 05**.

The main difference between the two pressure controls are the Cut In and Cut Out pressures as well as the differential as detailed on the chart here below:

Cut In Cut Out Differential

- 620075 00 10 bar 8,5 bar Delta 1,5 bar
- **620075 05 10,5 bar 8 bar Delta 2,5 bar**

The larger differential of the new pressure control assures its longer last w/out change anything on the operation of the machine.

The new Pressure Control is perfectly exchangeable with the previous one.
